Profile

Full Stack Engineer passionate about innovation, with a strong aptitude for learning and exceptional interpersonal skills. Dedicated team player and hard worker, committed to delivering high-quality solutions.

Work Experience

Frontend Software Engineer Intern, WeWise. [Next.js](#), [React](#), [Tailwind CSS](#)

June 2024 – Present

Responsible for developing and maintaining user-facing features. Collaborate with the design team to implement responsive and user-friendly interfaces and assist in optimizing applications for maximum speed and scalability.

Convert [Figma](#) design into a pixel-perfect website.

Projects

App for managing dog shelter. [React Native](#), [Firebase](#)

Designed and developed a Dog Shelter Management app with a team of three developers.

Employed [Git](#) for version control, ensuring efficient collaboration throughout the development lifecycle.

Online coding web. [Node.js](#), [React](#), [Express.js](#), [Socket.io](#), [MongoDB](#)

Developed an online coding platform facilitating real-time remote coding sessions between mentors and students.

Checkers Game. [.NET Framework](#), [Windows Forms](#)

Designed and implemented a classic Checkers game. Employed object-oriented programming principles to create a robust and scalable game architecture.

Hackathon

BeSafe, QueenB & AppsFlyer

Participated in a hackathon where our team developed an innovative web application using [Next.js](#), integrated with [ChatGPT](#). The app assists teachers in creating engaging and varied lessons while identifying student weaknesses in the material. It tailors lesson plans based on student performance to enhance learning outcomes.

Education

BSc Computer Science Degree, The Academic College of Tel Aviv-Yaffo

October 2020 – October 2023
